### NOTICE OF APPLICATION

Date: August 3, 2016

NOTICE IS HEREBY GIVEN that in 20 days the Assistant City Manager/Public Works Director of the City of Rolling Hills Estates plans to render a decision of approval regarding the following:

TITLE: CROWN CASTLE: New Installation (Project # ASG19)

LOCATION: Street Sign Pole @ Silver Spur Rd & Range Horse Ln

APPLICANT: Crown Castle

#### DESCRIPTION:

Crown Castle NG West, Inc. ("Crown Castle" or the "Applicant") is a public utility registered with the California Public Utilities Commission (CPUC), and is proposing to install a new small cell network facility as follows:

1. Replace existing 9' 11" street sign pole with a new 18' street sign pole.
2. Install two 49.9" antennas on new street sign pole.
3. Install one electric meter pedestal containing Southern California Edison meter and two radio equipment units on Silver Spur Road.

Cell site base stations typically consist of two parts: the electronic transceivers (called radios, cabinets, or radio frequency units) that are connected to the traditional wired telephone lines and the passive antennas that send out the wireless signals created by the radios to be received by individual subscriber units.

Crown Castle will construct, operate and maintain the small cell network facility within the City. The facility is intended to extend electronic-911 coverage and transmit wireless voice and data communications to customers in the community.

A mock-up of the proposed antennas and equipment has been installed at the site and will remain in place during the public comment period. Additional information regarding this cell site application, including plans and a photo simulation of the proposed installation, is available for review during the public comment period on the City's website at [www.RollingHillsEstatesCA.Gov](http://www.RollingHillsEstatesCA.Gov) (under the "What's New" link), or at City Hall between the hours of 7:30 am and 5:30 pm, Monday through Thursday, and 7:30 am through 4:30 pm on Friday.
